## **General Boat Description**

This 2026 Regal LX4 is on order and anticipated to arrive at the beginning of December. It has a graphite hull side with a seafoam boot stripe and titanium interior. It is powered by the Yamaha 4.2L F250XB. Some standard features include dual battery switch, Seastar electric steering and the stainless steel upgrade.

Options include black travel storage cover, transom shower, trim tabs, head compartment with toilet pump out fittings, half moon port light for head, water sport tow pylon, bow walk thru doors, docking lights, fender clips, dual Garmin 943xs with B60 transducer, teak cockpit table, premium package (bow rails and wireless charger) and white Power HardTop.

The optimized performance, functionality and luxury of the Regal LX4 means never having to compromise. Thoughtfully-engineered, this 24-foot outboard-powered bowrider uses every available inch to maximize seating and storage space. And with trademark Regal features like Slide-Away Seating, deeper lazarette storage and the addition of a wide interior beam, both beginner and advanced captains alike can appreciate the details of this comfortable, sporty boat with a reputation for excellence.
