The award-winning 340 is Back Cove's first-ever outboard-powered model. Her revolutionary hull design features Back Cove's proprietary Trailing Edge Lifting Surface (TRELIS) which gets her on plane faster and requires less horsepower than traditional hull designs. Capable of a 30-knot cruise and top-end speeds in excess of 40 knots, the Back Cove 340 will extend your cruising grounds, bringing new destinations within range and reducing travel time.

The cockpit and helm deck are designed for connection and ease, featuring a convertible transom seat, 360-degree visibility, and a fully equipped on-deck galley. A sliding mate's seat transforms into a U-shaped settee for entertaining, while large opening windows fill the space with light and air. Below deck, a queen-sized island berth, split head and shower, and smart storage solutions make overnighting easy. Whether it's a quick day trip or a weekend away, the 340 delivers comfort,

performance, and timeless appeal.
